Forward Program – Selected Participant, Google Cloud – Learning Program and Mentorship Award - Delivered 10+ technical seminars, supporting student understanding of technical concepts.

EXPERIENCE

FRONTEND AI ENGINEER FLYRANK AI

Jul 2026- Present

- AI-assisted development tools to automate boilerplate code generation and code reviews, slashing manual frontend debugging and implementation effort by 30%.
- Integrated intelligent workflows into the CI/CD pipeline, reducing manual operational tasks and accelerating feature delivery timelines.

PYTHON DEVELOPER INTERN INFOSYS SPRINGBOARD

Feb 2026 – Apr 2026

- Developed a cryptocurrency risk analytics platform processing real-time and historical data for 5+ digital assets.
- Engineered high-throughput Python data pipelines utilizing Pandas and NumPy to compute real-time risk metrics, including volatility, Sharpe ratio, beta, and VaR.

PYTHON INTERN NATIONAL SKILL DEVELOPMENT CORPORATION

Dec 2025 - Jan 2026

- Cultivated 3+ modular Python applications with reusable components to improve maintainability and code organization.
- Diagnosed and refactored critical database bottlenecks and runtime exceptions, boosting overall application uptime and system stability.

PYTHON DEVELOPER INTERN MOTIONCUT

Jul 2025 – Oct 2025

- Formulated Python automation tools that reduced manual file-processing effort by 40%.
- Designed scripts to process 1,000+ files, step-down processing time by 60%.

PYTHON FULL STACK INTERN SHIASH INFO SOLUTIONS PVT. LTD.

Aug 2024 – Jan 2025

- Django-based web applications, improving page-load performance by 30%.
- Optimized backend APIs and database queries, reducing execution time by 25%.

PROJECTS

- Crypto Volatility and Risk Analyzer:** Engineered Streamlit and Plotly platforms to analyze risk, performance, and comparative market trends.
- Python Automation Tools:** Automated processing of 1,000+ files, decreasing processing time by 40%.
- Portfolio Website:** Implemented responsive layouts and interactive UI components for an accessible user experience.

CERTIFICATIONS

- Python, NoSQL, Agile – Infosys
- CS50 Python – Harvard (edX)
- Python with AI – Internshala
- Cybersecurity – GUVI
- HackerRank Algorithmic Challenges
- Accenture Developer Simulation
